

TEAMTHRIVE COOKIE AND TRACKING TECHNOLOGIES POLICY

Effective Date: [Effective Date] | Last Updated: [Date]

1. Introduction

This Cookie and Tracking Technologies Policy explains how TeamThrive ("TeamThrive," "we," "our," or "us"), a product operated by [TeamThrive Legal Entity Name], a [entity type] organized under the laws of [State/Country], with its principal place of business at [Address] uses cookies and similar technologies on the TeamThrive website and software development kits, identifiers, and similar technologies in the TeamThrive mobile applications (together, "tracking technologies"). It supplements our Privacy Policy.

2. What Tracking Technologies Are

Cookies are small text files stored on your device by a website. In mobile applications, similar functions are performed by software development kits, local storage, and device or advertising identifiers. These technologies let us recognize your device, remember your preferences, keep the Platform secure, and understand how the Platform is used.

3. Categories We Use

(a) Strictly necessary technologies, required to operate the Platform, including authentication, security, and core functionality. These do not require consent.

(b) Functional technologies, which remember your preferences and settings.

(c) Analytics technologies, which help us understand usage and improve the Platform. We use these in the European Economic Area and the United Kingdom only with your consent.

(d) Advertising technologies. [Confirm whether any advertising or targeting technologies are used. The Platform should not use behavioral or targeted advertising directed at children. If no advertising technologies are used, state that here and delete this item.]

4. Consent (European Economic Area and United Kingdom)

Where required by the ePrivacy rules and the GDPR or UK GDPR, we place non-essential tracking technologies only after you give consent through our consent banner or device controls, and you may withdraw consent at any time. Strictly necessary technologies are used without consent because they are required for the Platform to function.

5. Children

Consistent with our commitment to children's privacy, we minimize tracking on parts of the Platform likely to be used by children and do not use tracking technologies to deliver behavioral or targeted advertising to children.

6. Managing Your Preferences

You can manage cookies through your browser settings and manage mobile identifiers through your device's privacy settings, including resetting or limiting your advertising identifier. Blocking strictly necessary technologies may prevent parts of the Platform from working. [Insert link to in-Platform cookie settings or consent manager.]

7. Details of Specific Technologies

[Insert a current list or table of the specific cookies and tracking technologies used, including provider, purpose, category, and duration. Keep this list accurate as the Platform changes.]

8. Changes and Contact

We may update this Policy from time to time and will post the updated version with a new effective date. Questions may be sent to [\[privacy@teamthrive.com\]](mailto:privacy@teamthrive.com).
